

Job Description

Position Title: Web Developer

Company Profile

Fluendo Embedded is the creator of Moovida, a free media center software that allows users to manage and enjoy all types of digital media your TV and PC from one simple and intuitive interface. Its mission is to bring interactivity to the big screen for an outstanding user experience.

Moovida 2.0 will be launched commercially in 2010 and will be characterized by a superior user experience, including a full set of Media Center features.

Fluendo Embedded is the youngest of 3 companies belonging to the Fluendo family. Its counterparts are Fluendo, leader in fully-licensed multimedia solutions for Linux based desktops and devices, and Flumotion, provider for the only cross-format streaming media encoder as well as open source platform server.
